

KVBOX - key box for car windows

Effective key management especially for auto repair shops, car dealers, parking services, etc. The KVBOX hangs directly on the car window where it is securely fixed. Plenty of room even for large car keys. Made of aluminium - so it weighs only 780g. Opens with a key that can be used for up to 10 KVBOXes. "Push and lock" locking mechanism automatically engages when the box is closed; no manual locking required. Also suitable for outdoor use thanks to the watertight design of the box.
