

Protective covers for fuel cards and fleet cards

Extending the life cycle of all conventional fuel cards and fleet cards that are equipped with a magnetic strip. Also perfect for protecting EU driving licences. Available as hard-cover and soft-cover variations. Both variations prevent the cards from bending and breaking as well as protecting them from friction.

- available as hard-cover and soft-cover variations
- prevent the cards from breaking
- they also protect them from friction
- perfect for protecting EU driving licences
