

## Table clamp for partition wall

Whether you want to attach a privacy or hygiene screen as a partition, this practical mounting made of metal offers a stable solution.

The mounting can be attached to table tops with a minimum height of approx. 25 mm. Maximum table top height should be approx. 55 mm. The clamp can be rotated on the mounting in 45 degrees, this allows mounting both between two tables and for separation in the middle of a table, for example as a hygiene protection. The holder can also be placed longitudinally along table counters on any side, plate or the like, whether freestanding or lined up. In addition, individual corner solutions are possible.

The contact surfaces are provided with a protective rubber coating, which protects the elements to be attached from scratches or damage.

- For privacy screen or hygiene screen
- Made of metal
- Clamp can be rotated 45 degrees
- Protective rubber coating protects the elements to be attached from scratches or damage
- PU: 1 pcs
- MOQ: 1 pcs
