

Wall Organizer "Flat" for DIN A5

The wall organizer "Flat" is the ideal solution for the clear organization of documentation, orders, or similar materials, and is perfectly suited for use in workshops, offices, or warehouses. The system consists of a base module that is securely mounted to the wall and can hold up to ten colored storage trays. The trays are specifically designed for order sleeves and documentation in DIN A5 format and have a maximum depth of 9 mm, ensuring a space-saving installation. An adjustable insertion depth also allows the use of DIN A6 landscape formats. Thanks to the different colors of the trays, they can be used for structuring according to allocation or priority, ensuring optimal organization. The wall organizer is made of durable, impact-resistant ABS material, providing longevity and resistance. Optional labeling clips can also be attached to the trays to further improve clarity. The wall organizer is also available in larger versions with different tray depths for DIN A4 documents.

- Modular wall system with up to 10 storage trays
- Trays for DIN A5 and DIN A6 documentation and order sleeves
- Tray depth: 9 mm
- Width: 180 mm
